

2021 Spring Has Sprung

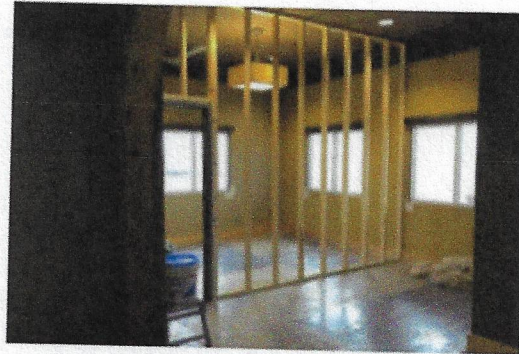

2021 Spring Season is Underway

March 22nd marks the first date of field work with anhydrous ammonia being applied. Spring tillage is also being done preparing the soil for the proper seed bed. We are busy working to make sure we are set up for another successful growing season.

New Improvements Under Construction

We are always looking for ways to improve operations. We are currently adding onto the grain storage facility, a solar panel at one of the hog sites and an office remodel to add another private office.

2021 Top Producer Award

LongViews Farms is very honored and humbled to have received the 2021 Top Producer of the Year Award presented by Farm Journal at the Top Producer Summit. We could not have received such prestigious recognition without your continued support and dedication.
